Re: **NOTICE OF APPEAL**  
Appeal of Order to Take Corrective Action dated June 13, 2017  
1846 East Main St., Sunset Beach, North Carolina  
Palm Cove, Lot 9  
Parcel 256MB009

Dear Mr. Marziano and Madam Clerk:

This law firm represents David A. Tendler and Susan E. Spratt, the owners of the above-referenced property. Pursuant to Town of Sunset Beach ("Town") UDO Article 12, Section 12.03(D)(4), and all other applicable law and regulations, please accept this letter as my clients' appeal to Town Council from the letter and Order to Take Corrective Action issued by Mr. Marziano dated June 13, 2017, a copy of which is attached hereto as Exhibit "A" (the "Order").

For reasons to be more fully set forth at the hearing before Town Council on this appeal, my clients disagree with the alleged violations and Findings set forth in the Order, including without limitation the Town's interpretation and application of UDO Article 12, Part I, 44 CFR 60.3(e), NCRC Section 322.1.6, NCRC Section 322.3.4 and IBC ASCE 24-05.

My clients assert the Town's approval of prior permit and building inspections and the Town's issuance of a certificate of occupancy and related construction and building permits and approvals as a complete or partial defense to the alleged violations set forth in the Order. My

clients also assert that to the extent that there may be technical violations of the UDO or other applicable regulations, which violations are denied herein, such violations result from implementing construction methods and techniques suggested and/or approved by the Town following prior consultation between my clients' building professionals and Town building and permitting officials during the construction process. Accordingly, my clients assert the defenses of laches, waiver and estoppel as a complete or partial defense to the alleged violations.

Alternatively, my clients assert as a complete or partial defense in this matter that all or some of the alleged violations are de minimus and that enforcement should not be pursued in the current actions, particularly in light of the Town's prior building inspections and approvals and numerous other examples of similar construction methods and techniques that can be found throughout the Town.

Based upon the foregoing and the evidence and arguments to be made at the hearing of this appeal, my clients respectfully contend that the alleged violations should be dismissed or reversed.

My clients reserve the right to assert additional defenses as the facts and circumstances become further known in this matter.

Additionally, my clients reserve their rights to request a variance from the applicable ordinances and regulations and/or seek any other exemptions or exceptions to the applicable ordinances and regulations that may be available under the circumstances.

If there are any required filing or appeal fees or forms associated with this appeal, please let me know, and my clients will promptly pay any required fees and submit any required forms. Also, if you need any other information at this time please let me know.

We kindly request that that hearing on this appeal be scheduled for a date certain in the fall of 2017, in order to allow the parties additional time to continue to work toward a mutually agreeable resolution in this matter. Also, my clients do appreciate the Town's allowance in the Order for a 180-day compliance timeframe for the alleged violations, and we look forward to further discussions with the Town in an effort to try to resolve this matter in the next few months without requiring a hearing, if possible.

Thank you for your time and assistance in this matter.
